

TEXTIT COIN

Our Vision & Mission

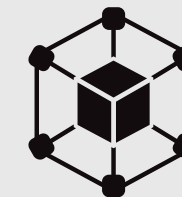

Our Vision

TEXTcoin is a fearless, community-driven cryptocurrency project forged in the heart of Texas, designed to empower economic independence and restore the power of honest money to the people. We are building the largest privately owned decentralized mine in the world right here in Texas! We are empowering individuals and businesses to break free from the current centralized financial systems, creating a vibrant, self-sustaining economy rooted in transparency, security, and local pride.

Our Mission

Our mission is to unite our community in redefining traditional finance, driving innovation, and building a prosperous sovereign future for Texas.

One block at a time!

What is TEXTcoin?

The American-made blockchain that is rooted in transparency, security, and community engagement. Unlike other crypto projects, TEXTcoin is ran by real leadership and experts in the world of alternative currencies.

Our first goal to reach \$16 by February 2026.

TEXTcoin is a decentralized proof-of-work cryptocurrency cloned from Litecoin, using the same script hashing algorithm.

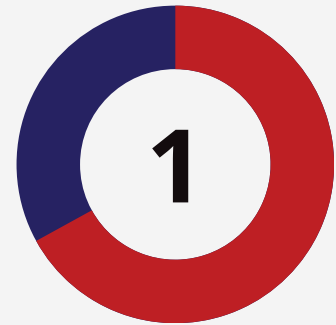

Designed to enable fast, low cost, peer-to-peer transactions with no intermediaries.

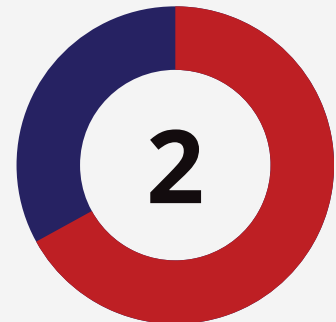

Exclusively mined in Texas.

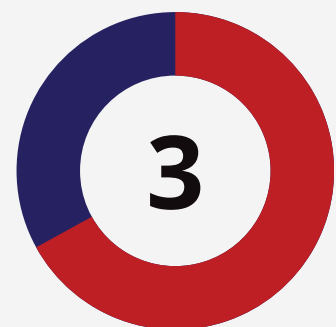

Why TEXTITcoin?

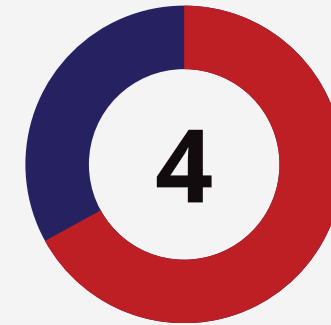

It's based on US soil in the great state of Texas.

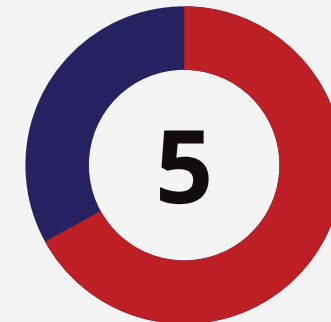

Bitcoin and other cryptocurrencies are controlled by the same foreign governments and institutions they set out to disrupt.

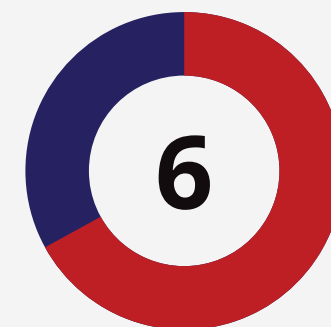

Over 90% of cryptos are meme coins or are made out of thin air (scams, pump-and-dumps). TEXTIT is Proof-of-Work—powered by real equipment and led by real people.

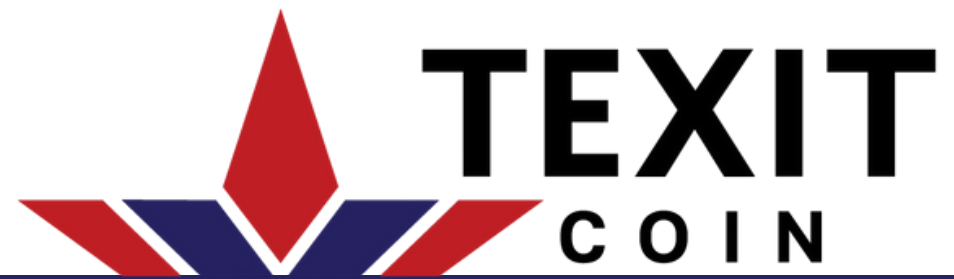

Zero pre-mined coins. No “lock up” or “hold” periods. TEXTITcoin is liquid and trading on exchanges, such as Dex-Trade and BitMart.

Power Consumption: Bitcoin, like most cryptos, consumes 100x more power than required.

Fixed supply of 353 million coins distributed over the next 136 years as a deflationary design, made for honest trade.

TEXITcoin went live at
\$0.028 in April 2024.

We have multiple mine
sites operational now.

We have grown to over
21,000 in our community.

We have brought in
over \$50 million.

Why would TEXTITcoin be the next *Big Crypto*?

Real People, Real Leadership: Bobby Gray, *Founder & Fearless Leader*

- Created *American Open Currency Standard* in 2008-and still going today.
- Alternative Currency Expert: Testified in Congress 2012 about monetary policy.
- The most famous guy you've never heard of, due to designing the original Bitcoin Design in 2012.
- Bridged the gap between the physical and digital world with Cold Storage Coins.
- Champion of honest money with 17+ years of experience in the field.

Proof-of-Work: The hard way! We bring receipts to the conversation, being completely transparent with operations and our mine-building endeavours.

“TEXTcoin is the product of combining the principles of honest money and the financial technology of our time.”

Bobby Gray

Mining TEXTcoin

We are crowdfunding our mine by selling megahash packages, also called “seats on the rocketship. ” These pay out TEXTcoin to your cold storage wallet daily!

Without mining, our Blockchain would be insecure and not be seen as a real money or a real crypto project.

“Seats” are a one-time fee; they start at \$995 and packages can range up to \$50,000+.

No work or hardware required! We take care of buying and installing mining machines.

Mining TEXTITcoin

- Payouts are daily.
- Passive income for 136 years.
- Generational wealth-building
- Access to our weekly community meetings with Bobby Gray.
- Earn bonuses and trips along the way!

VS

Buying TEXTITcoin

- No minimum—you can buy as little as \$1.
- Set amount of TXC—no payouts, no bonuses.
- No access to our community or inner circle.
- Once you sell, you have nothing left.

Rapid Rewards!

Earn While You Learn...

Refer and earn!

When you sign up for our mining program, you have to enter an Affiliate ID. If you share this opportunity with people, you can earn rewards up to \$3000/week.

Up to \$3,000/week?!

You can choose to earn your rewards in Cash (USDC), TXC or Hashpower (more seats).

How Does it Work?

You have a Right and a Left leg. You match up 3 points on the right and 3 points on the left and you earn \$1,000!

Getting Started

What we need from you:

- Name
- Phone Number
- Email Address
- Mailing Address
- Payment

Note: MineTxC only accepts crypto payments.

Don't have any crypto?

Get in touch with your sponsor and they can discuss alternative payment options to make this process easy for you!
